Debating Society.

Editor THE PROGRESS.

SIR,—The suggestion made in
your last issue for the organization
of a debating society is very sens-
ible. The winter evenings are
many and long; there are many
questions a discussion of which
could scarcely fail to profit most of
us besides affording a pleasant
mode of passing a few hours.

In a town the size of Qu'Appelle
there must surely be a sufficient
number of individuals to carry
through successfully a series of ten
or twelve meetings during the winter.
I would propose that THE
PROGRESS call a meeting without
delay, to ascertain if this be or be
not the case. It is fairly to be pre-
sumed that the use of the Council
Room or a school room could be
freely obtained for such a purpose
if no more suitable place was of-
fered, and consequently a merely
nominal membership fee should
suffice.

The formation of a Rifle Club is
also a matter which should not be
left fall through, and if the propos-
ed debating society does eventuate,
at a suitable time before spring
one of its meetings could be devo-
ted to that question.

We need a little more local life
in Qu'Appelle.

QUIS-QUIS.

The C. P. R. annual Fall Exe-
cursions open this year on Decem-
ber 1st, the rates being the same as in

points east of Montreal in the pro-
vinces of Quebec, New Brunswick

commodation of European passen-
gers also passes Qu'Appelle every
Monday going through to St. John
and Halifax, the latter point being
reached on Friday following. The
car goes alongside the steamer
which sails at once and arrives at
Liverpool the next Thursday. The
quickest passage that can be made
and by the shortest route.

The 1901 R. Hicks Almanac

Whatever may be said of the
scientific accuracy of which the
Rev. R. Hicks bases his yearly
forecasts of storm and weather, it
is a remarkable fact that specific
warnings of every great storm,
flood, cold wave and drought, have
been plainly printed in his now
famous almanac for many years.
The latest startling proof of this
fact was the destruction of Galveston,
Texas, on the very day named by
Prof. Hicks in his 1900 Almanac,
as one of disaster by storm along
the gulf coasts. The 1901 Almanac,
by far the finest, most complete
and beautiful yet published, is now ready. This remark-
able book of near 200 pages, splen-
dently illustrated with charts and
half-tone engravings, goes as a
premium to every subscriber who
pays one dollar a year for Prof.
Hicks' journal, Word and Works.
The Almanac alone is sent prepaid
for only 25 cents. Order from
Word and Works Publishing Com-
pany, 2201 Locust Street, St. Louis,
Mo.

KAISER WILLIAM.

A WOMAN HURLS AN AXE AT HIS CARRIAGE.

The Would-be Assassin Arrested—She is Believed to be Insane—An Excited Crowd.

Breslau, Nov. 18.—Emperor William was the object of an attempted outrage Friday morning, which, however, failed.

As he was driving in an open carriage to the cuirassier barracks, accompanied by the hereditary Prince of Saxe-Meiningen, a woman in the crowd, hurled an axe at the carriage. The rapidity with which the vehicle was passing saved its occupants. The axe, or hatchet, fell just behind. The woman was immediately arrested.

The missile, it developed later, was a short hand chopper. The woman is believed to be insane. Her name is Schmitz. She occupied a place in the front rank of the spectators, on the furthest side from the emperor. The chopper was so well aimed, it was afterwards said, that it actually struck the carriage. A crowd of people who witnessed the outrage threw themselves on the emperor's assailant, but the prompt intervention of the police saved the woman from injury.

RAILWAY ACCIDENT IN FRANCE.

Bayonne, France, Nov. 18.—The southern express was derailed at noon yesterday at St. Georges and Saubusse, near Bax, about 33 miles northeast of Bayonne. Thirteen persons were killed and twenty others injured, seven seriously. Five passengers are missing. The list of killed includes Senator J. F. Caney, a Peruvian minister to France, and an attaché of the Peruvian legation in Madrid.

The engineer says that the ground gave way under the locomotive which sank into the blast. The restaurant car came into terrific collision with the tender and rolled down the embankment. It was lunch hour, and out of 34 passengers in the train, 30 were at the table. The bodies were terribly mangled. One of the butlers of the restaurant car who was slightly injured became suddenly insane and walked too and fro amid the wreckage singing at the top of his voice. The engineer and stoker were thrown into a field and had miraculous escapes. The Italian envoy to the Spanish court to announce the accession of King Victor Emmanuel, is believed to be among the missing.

CAPITAL NOTES.

Ottawa, Nov. 18.—The mayor will propose at a meeting of the city council that the Duke and Duchess of York, who are going to Australia next year, be invited to go by way of Canada and visit the capital, and that steps be taken to have other Canadian cities invite the future king and queen to visit the Dominion.

Mr. Mulock is considering the question of a registered postal insurance up to \$25. In 1899 out of a total of 3,670,000 registered letters, only 136 went astray. Of these 25 were stolen by train robbers and four destroyed in railway accidents.

Mr. Ralph Smith, M. P. elect for Vancouver, has resigned his position on the Chinese commission. A successor has not yet been appointed.

Four hundred and fifty new buildings, at a value of \$778,180, were erected in Ottawa this year.

CONFESSED HIS CRIME.

Denver, Col., Nov. 18.—Statements made by John Porter, a 16-year-old negro, of Lawrence, Kansas, who on Friday confessed that he murdered Louise Frost, a 11-year-old school girl of Lamon, Col., have been confirmed. It has been determined to take Porter to the Hugo jail. It is probable that Porter's father, and brother will also be taken to Hugo. It is reported that a dozen armed men from Lamon are en route to Denver for the purpose of escorting the sheriff and his prisoners. A mob of 500 men is said to be forming at Lamon and Hugo, and that they make no secret of their intentions to lynch Porter at all hazards.

MAY NOT DISHANT.

Ottawa, Nov. 18.—Dr. Borden, minister of militia, returned to the city on Friday. He had a long interview with Lord Strathcona in Montreal. It is reported that they were talking over the idea of making Strathcona a member of the militia to Canada the nucleus of a mounted regiment of infantry for Manitoba and the Northwest. The minister of militia has had under contemplation for some time organizing an excellent way of starting it. It would be a pity to have such an excellent body of fighting men disbanded after their return.

Members of the International Cigar makers' union quit work recently in a number of factories, throwing nearly 2,000 persons out of employment. The St. Ignace union, "Bessencia," is apparently not in sympathy with the movement, and about 500 of its members continued at work. Today the Internationals demanded that these men come out. A volley was fired in reply, and then from the street came fusillade. Those inside fired blindly from the windows. No one was hit, however, and the police soon dispersed the crowd. AN ELECTRIC ROAD.

The railroad companies in Canada and the United States are awakening to the advantages of securing all the traffic on and adjacent to their lines. From many parts comes the news that railroad companies are building electric lines to connect neighboring towns and districts with their main lines. The plan is a good one and might be employed advantageously by the C. P. R.

A road of this kind, suitable for carrying freight, connecting Port Qu'Appelle and this town, would, in our opinion, soon become a paying investment. Passenger traffic alone would for a time be unprofitable, but passenger and freight traffic combined should pay a fair interest on the capital involved.

With comfortable transportation between these two towns at reasonable rates it would not be long before Port Qu'Appelle would begin to grow. Its beautiful situation, water power and proximity to grain growing and ranching districts could not fail to attract. A grist mill would soon again become an actuality, and the now vacant lands on all sides of the town would be made to minister to the welfare of the tiller of the soil and of the adjacent town. This is no fancy picture. Greater chances have been wrought where the natural conditions were not so promising. To obtain this road will require agitation, influence and capital. The two first must come from the people interested, the last will be readily found if the C. P. R. can be induced to build.

PAID-IN-ADVANCE SUBSCRIBERS.

THE PROGRESS is looking for congratulations on account of the splendid clubbing arrangements it has been able to make in connection with the Western Home Monthly. We are offering both papers during 1901 to paid-in-advance subscribers for \$1.00, the bare price of our own paper alone. The Western Home Monthly is a new monthly magazine, and one which seems to be born to fill a long felt want, viz to supply our homes with home-bred reading, up and to with the western tastes. It will contain a splendid collection of local and

tertaining stories; suggestive hints on western life; departments on fashion, culinary lore and woman's work generally; and—best of all—a lot of matter toned down to meet the reading wants of the boys and girls. It is, in short, a magazine, clean, honest, sparkling and helpful throughout. Surely with our own old reliable, THE PROGRESS, and the Monthly both one year for \$1.00, no subscriber can fail to walk up his money for another year.

NOTES.

Mr. Winkler, who resigned his seat in the Manitoba legislature as member for Rhineland to become the machine candidate against Mr. Richardson, is content to occupy the provincial arena for a while longer and has been re-elected for his former constituency.

When it is known that over 2,000 negroes have been put to death by mobs in the United States during the last ten years it cannot be wondered at that President McKinley is interesting himself in the matter. Such a state of affairs is a disgrace to our neighbor. Strict enforcement of the law and meting out the extreme penalty to the murderers would soon teach them that the republic values the life of a negro as highly as that of a white man and the criminal instincts of those who commit the crimes would soon be checked. So long, however, as judges and juries sympathize with the evil-doers and refuse to convict, so long will the horrible practice continue.

Cattle Shipments.

The export of live stock this season has been a remarkable one and no doubt the shippers found it a profitable season.

The total number of cattle shipped this season up to Nov. 15th amounted to 87,525 head, as compared with a total shipment for last season of 81,801, a material increase. Before the close of navigation the number exported will be added to. The largest shippers of cattle for the season were Messrs. Gordon & Ironsides, with a total of 37,250 head, which shows an increase of 9,204 head compared with 1899.

Mr. Alex. McIntosh is also prominently to the fore with a total of 5,350 head, while other local firms report fairly large shipments.

Territorial and General News.

Mr. Archie Macdonald of Port Qu'Appelle was in town Monday and Tuesday, and visited His Honor the Lieut. Governor at Government House.—The Leader.

F. Ferguson who has been managing the Regina creamery during the summer went east on Saturday. After spending a few days at Qu'Appelle he will return to his home at Neepawa.—The Leader.

At the recent examinations held by the Law Society of the North West Territories Mr. F. T. Gorman

succeeded in passing in his final examination taking an average of 74 per cent. on the total number of marks obtainable and in the subjects of Equity, Criminal Law and Evidence taking 93.84 and 81 per cent. respectively.—The Leader.

Morrison the murderer of the McArthur family has been sentenced to be hanged at Moosomin on January 17.

An accident which might have been attended with serious consequences occurred on Friday evening north of Red Deer. The north-bound train which left Calgary that same morning jumped the track owing to a broken axle, the baggage car and three box cars being derailed. Fortunately no one was hurt. The passengers on the Edmonton south-bound train were taken back to Edmonton, while the passengers in the wrecked train remained at Lacemba. A week-end train left Calgary for the scene of action immediately on receipt of the news.—Calgary Herald.

A grossly exaggerated account of a piece of horseplay at the N. W. M. P. barracks was sent to the Winnipeg Telegram. The facts are that Constables Catty and Hepworth were larking together when the former struck the latter a smart blow on the mouth. Four hours afterwards Hepworth fainted, but the faint had nothing to do with the scuffle. Hepworth rested in Hospital a couple of days and—that is all. The Telegram's story about "hot words," "loss of reason" and Catty condemned to the guard room is all rubbish. The additional story of a speeding constable having deserted is on a par with the news that Queen Anne is dead.—The Leader.

Mr. Alex. Brechin, secretary of the Moose Jaw School Board, had a somewhat strange experience last week. On Thursday night he and Mr. McDonald were returning to Moose Jaw from Chaplin, where they had acted as scrutineers in the interest of Mr. Davin on election day. They were travelling on a freight and reached Caron, 18 miles west, about 10 o'clock at night. Here the train stopped for some minutes and Mr. Brechin, grain buyer, came into the caboose to learn how the poll went at Chaplin. Mr. Brechin followed him out and Mr. McDonald went to sleep. After the train started Mr. Brechin was missed, but it was supposed that he had remained with Mr. Rortison at the section house. No anxiety was felt until Saturday when it was learned that he had not stopped at Caron and his whereabouts were not known. Saturday afternoon several settlers of whom, eight miles west of town, reported having seen a man wandering over the prairie, but thought it was some sportsman in search for game. No trace of him being found, on Saturday night a search party was formed and went out to look for him. At 10 o'clock he was found in the big ravine near the Boharm school house and about 200 yards from the track and not far from the trail passing Mr. R. K. Thomson's. When found he was lying on the ground in a semi-conscious condition and unable to help himself. He was taken to Mr. R. K. Thomson's, where, under the care of Dr. McCulloch and Mrs. Thomson, he soon recovered and was able to come to town on Wednesday. When he got off the caboose at Caron the train must have pulled out and left him. Being anxious to get back to his business he started to walk and on reaching the ravine he must have laid down to rest and was overcome with the cold weather of Friday morning, which continued all day. Had he not been found on Saturday night, it is doubtful if he would have survived until Sunday morning.—Times.

ARISTOCRATIC MAYORS.
London, Nov. 14.—A novel feature of the lord mayor's banquet was the appearance of the mayors of the newly created boroughs of London. The titles sounded strange, but the idea seems to meet with general approval. Among the new mayors of London are two dukes, one earl, four members of the house of commons and two knights. The Duke of Norfolk was elected first mayor of the city. Earl Cardigan, mayor of Chelsea, and the Duke of Bedford, mayor of Holborn. With such aristocratic heads the new city hall may it is believed, but fair to rival the Mansion House.

It is said that the cabinet will consist of 20 members, the largest recorded in our political history. The appointments, however, it seems to be regarded by Lord Salisbury as insignificant.

WILL HAVE A PART

THE TRANSVAAL WILL BEAR PART OF THE BURDEN.

An Important Declaration by Sir Michael Hicks-Beach—A Canadian Injured.

London, Nov. 14.—Sir Michael Hicks-Beach, chancellor of the exchequer, speaking this evening at Bristol, said it would not be his privilege in the next budget to relieve the tax payers. He went on to say that he was not about to increase the budget, but the government expenditure had been enormous, and especially in China and South Africa. He declared emphatically, however, that the wealth of the Transvaal would have to bear part of the strain.

"Of course," said Sir Michael, "we must not spoil the future of the Transvaal by attempting to impose upon it a greater burden than it could reasonably bear. That would be cutting our own throats. Therefore, the British taxpayers must necessarily bear a large part of the cost of the war." He also emphasized the fact that the maintenance of a strong army and navy would involve a further considerable expenditure.

Lord Roberts, in responding to an inquiry from the Prince of Wales, has telegraphed authorizing a denial of the charges of cowardice made in Lord Rosslyn's book against British officers in the Sannas Post affair.

Lord Rosslyn, in view of Lord Roberts' denial, has written to the Prince of Wales, regretting that he was misinformed, and tendering an apology in the following language: "I owe to the regiments whose honor my publication of a groundless report has called in question the deepest apology and the fullest reparation. I offer it to you, sir, as colonel-in-chief. I offer to the colonels of the various regiments, I offer to every officer, non-commissioned officer and men, and I sincerely trust that this unqualified apology will be accepted in the spirit in which it is offered."

Ottawa, Nov. 14.—Sir Thirde Mil- J. B. Bull, of Strathcona's Horse, re-cables to Lord Minto stating that he was accidentally severely wounded at Fredericton on November 10. The son of kin is Fred. Bull, of London, Eng. with fatal results.

DOMINION REVENUE.
Ottawa, Nov. 13.—The statement of revenue and expenditure of the Dominion for the quarter ending Oct. 31, was issued by the finance department today. The revenue for that period was \$17,329,353, an increase of \$1,328,872 over the same time last year. The expenditure was \$10,148,234, an increase of about one million dollars over the same four months in 1899; making a betterment in the finances for the past quarter of over \$300,000.

There was a substantial increase in the revenue of every department of the service for the current year. The expenditure on ordinary account leaves a surplus of over \$7,000,000. Capital account expenditure increased by \$1,574,000 over the same quarter in 1899. Deducting the ordinary and capital expenditure from the revenue and there remains a surplus of \$5,306,170 due the current quarter.

THE ARABIAN WRECKED.
Whitfish Point, Nov. 14.—The Canadian steamer Arabian was driven ashore on Whitfish Point in the gale yesterday. She struck beach about eight miles west of here and being loaded a cargo, went high and dry. The crew was saved, and the aid of one of the life saving crew. She does not appear to have been badly damaged, as the place where she struck is sandy. Tugs will be sent to her rescue from South Star Marine wharf, and will tow her down, the sea being heavy. The steamer is owned by J. B. Fairgrove, of Hamilton, Ont. She measures 770 gross tons, and was built in 1892. Her dimensions are 178 feet long and 31 feet beam.

ARISTOCRATIC MAYORS.
London, Nov. 14.—A novel feature of the lord mayor's banquet was the appearance of the mayors of the newly created boroughs of London. The titles sounded strange, but the idea seems to meet with general approval. Among the new mayors of London are two dukes, one earl, four members of the house of commons and two knights. Lucky Dog.
"What is an optimist?" asked the youth who would find become wise.
"An optimist," answered the man who has become wise at a sacrifice of amiability, "is a man who, having no coal bills or other household expenses himself, takes it for granted that everybody can be just as light hearted as he is."
Nevertheless.
"I see by the papers," remarked the observant boarder, "that the former queen of the Sandwich Islands has bought an automobile."
"Ex Queen Lili," added the cross-eyed boarder, "may be foolish, but she is not horridly carriageless."—Pittsburg

New Floor.

As will be seen by advt. in another column, a movement is on foot to put a new floor in the town hall. The improvement is much needed. Notice the hour and date of meeting.

Agricultural Meeting.

The Qu'Appelle Agricultural Society has arranged for another public meeting to be held in the town hall on Saturday, Dec. 1, at 2 p.m. An interesting programme has been provided. See advt.

Large Potatoes.

Mr. S. T. Gibson handed us last week three potatoes whose combined weight was 5½ pounds. They were well shaped and as they were grown on his farm north of town they show the productive qualities of the soil in this district.

Rev. Mr. Russell, for some years a missionary in Central India, delivered an interesting and instructive illustrated lecture on "Mission Life in India" on Friday evening last in the Presbyterian church to a large audience. A collection in aid of mission work was taken up.

Debating Society.

In accordance with the suggestion of "Quis-quis" we have taken upon ourselves to secure the use of the principal's room in the school house for Monday evening next, 25th inst., when a meeting will be held to organize a literary or debating society. Both ladies and gentlemen are invited to attend at 7.30 p.m. It is hoped that a sufficient number will be present to warrant organization. Do not forget the night and hour.

A Magnificent Reception.

The publishers of The Family Herald and Weekly Star, of Montreal, may justly feel proud of the magnificent reception their new premium pictures, "CHRIST IN THE TEMPLE," and "HOME FROM THE WAR," have received. They deserve it, too, for the pictures are certainly most beautiful. Either one of them alone would be considered a splendid premium, but when one knows that each subscriber receives both pictures, he can easily understand the demand for that favorite paper this season. Clergy of all denominations are publicly requesting their church members to secure a copy of the picture, "CHRIST IN THE TEMPLE."

PERSONALS

Mr. E. W. Christie left on Sunday for New Westminster, B. C., where he has secured a position. We wish him success.

Reports are to hand from British Columbia that Messrs. D. McVicar, W. Miller, Jas. Craig and J. H. Ellis have all secured good positions and are doing well.

The many friends of Mr. Chris. Podham, who for some years resided in this district, will be sorry to hear that he has been dangerously ill for the past six months in the hospital, Grantham, England.

Hickysale Items.

From our own correspondent.]

King winter is ruling with an iron hand.

Miss Eveline Eason, of Regina, is visiting friends and acquaintances in this settlement.

School has closed and Miss York the teacher has returned to her home in Touchwood.

We are all pleased to see our esteemed friend Mr. Edward Grady return to this settlement. He has for the past six months been teaching school near Prince Albert, and is now engaged as teacher for the winter in No. 7 Colony.

Mr. Jno. Howard has returned from Hedgesford, in which place he was engaged as teacher.

There is great danger from being lost these cold frosty nights, and it would be well if the young people would be advised by their elders.

Our Washington Letter.

Negotiations are now in progress looking towards a resumption of the sittings of the High Joint Commission between Canada and the United States, which came to an ineffectual stop a year or two ago owing to the inability of the commissioners to agree upon the Alaskan boundary question. At that time elections were in prospect in both countries, and it was not possible for either side to refrain from "playing politics." Now that the governments have triumphed in each and are safe for a long period to come, it is felt that it will be easier to reach some agreement. Probably the Alaskan *modus vivendi* will be allowed to hold, modified only by direct negotiations between the governments and that the Commission will turn its attention only to the other important questions at issue. These are numerous and of long standing, including the issues over Bering Sea and the catch of fur seals; the unmarked boundary between Canada and the United States near Passamaquoddy Bay in Maine and at points between Wisconsin and Minnesota and Canada; the North-east fisheries question, involving the rights of fishing in the North Atlantic off Newfoundland and other points; the regulation of the fishing rights on the great lakes; alien labor immigration across the Canadian-American border; commercial reciprocity between the two countries; the regulation of the bonding system, by which goods are carried in bond across the frontier, and also the regulation of tariff by international railways and canals of the two countries; reciprocal mining privileges in the Klondike, British North America, and other points; wrecking and salvage on the ocean and great lakes in coast waters, and the modification of the treaty arrangement under which only one war vessel can be maintained on the great lakes, with a view to allowing war ships to be built on the lakes and then floated out to the ocean. Progress has been made on some of these questions and a practical agreement reached on several of them. With the prospects of omitting Alaska from the points involved, the chances of reaching a treaty agreement on the other points will be materially improved.

Rev. A. J. McLeod Dead.

Regina, Nov. 20. Rev. A. J. McLeod, principal of the Indian Industrial school, died at 12.30 today.

He had been suffering for the past ten days with incessant hiccupping, together with liver and stomach trouble. He was universally respected and his untimely death has created profound sorrow.
